General Meeting, July 20, 2020

The Beginning
How did the NAS Initiative Start? Betsy Knappen MSN, APRN

Progress
The NAS Driver Diagram Jodi Jackson, M.D.
KPQC COVID19 Algorithm Betsy Knappen
Coding NAS in Kansas Jodi Jackson
Birth Center NAS Initiatives across Kansas Betsy Knappen and Center Leaders

BREAK (10 min)

Steps for Success
KDHE Maternal Child Health resources for safe discharge Stephanie Wolf, RN, BSN, CLC
Kansas Connecting Communities new Provider Consultation Line Patricia Carrillo, BA
Jennifer Tozier, LMSW
Kansas Power of the Positive campaign increasing support-seeking in pregnant and postpartum women with OUD Patricia Houston, MBA
Guidance for communications between Birth Centers and the State of Kansas Betsy Knappen
Eat, Sleep, Console Update Jodi Jackson
Standardized Pharmacologic Approach Utilizing PRN Medication for NAS Jodi Jackson

KPQC Business Meeting
Amendments to the KPQC Bylaws Kourtney Bettinger M.D.
KPQC Chairperson
KPQC Next Initiative Kasey Sorell, BSN, RN
Today’s Speakers

Betsy Knappen, MSN, APRN
Betsy Knappen is the Education and Quality Improvement Coordinator for the KPQC. Betsy is a Neonatal Nurse Practitioner for Children’s Mercy Hospital and co-developed Shawnee Mission Medical Center’s Family Centered Neonatal Abstinence Syndrome Program.

Jodi Jackson, MD
Dr. Jackson is Past Chairperson of the KPQC. She is a neonatologist at Children's Mercy-Kansas City and the Medical Director of the NICU at Shawnee Mission Medical Center. Dr. Jackson co-developed Shawnee Mission Medical Center’s Family Centered NAS Program.

Stephanie Wolf, RN, BSN, CLC
Stephanie Wolf is Kansas Perinatal Community Collaboratives Program Coordinator for the KDHE Bureau of Family Health. She leads efforts to create community-driven systems of care that improve maternal and infant health.

Patricia Carrillo, BA
Patricia Carrillo has worked for KU’s Center for Public Partnership and Research for over a year and serves as the Program Manager for the Kansas Connecting Communities project, supporting community implementation and provider outreach.

Jennifer Tozier, LMSW
Jennifer Tozier is a Licensed Master Addiction Counselor who has been a telehealth clinician at CKF Addiction Treatment for the last 2 years. Her prior work experience includes working in inpatient and outpatient addiction treatment settings.

Patricia Houston, MBA
Patricia Houston is Promotion and Prevention Specialist for the WSU Community Engagement Institute Prevention Initiatives. The Prevention Initiatives team is dedicated to supporting community strategies for behavioral health promotion.

Kourtney Bettinger, MD, MPH
Dr. Bettinger is Chairperson of the KPQC. She is assistant professor of Pediatrics at the University of Kansas Medical Center. She has worked to implement NAS best practices in the KUMC nursery and primarily uses her public health training to improve newborn health.

Kasey Sorell, BSN, RN, CPC
Kasey Sorell is Health Planning Consultant for the KDHE Bureau of Family Health Maternal & Perinatal Initiatives. She oversees both the Kansas Maternal Morality Review and the Kansas Perinatal Quality Collaborative’s quality improvement initiatives.

The WSU Community Engagement Institute
The Community Engagement Institute is dedicated to improving the health of Kansans through leadership development, research and evaluation, organizational capacity building, community collaboration, and public health and behavioral health initiatives.
Kansas Perinatal Quality Collaborative’s Neonatal Abstinence Syndrome Initiative

**AIM STATEMENT**

By Oct 2020:
* 85% of all Kansas birth centers enrolled in VON NAS Universal Education will achieved “Center of Excellence” designation
* Less that 50% of infants at risk for NAS will be directly admitted to the NICU
* Number of infants at risk for NAS requiring pharmacological treatment will decrease by 25%
* LOS for Kansas infant pharmacologically treated will decrease by 2 days

**PRIMARY DRIVERS**

- VON Universal Training (NAS Education and State Tool Kit)
- Support Centers in VON Education, Standardizing Care Guidelines
- KPQC Learning Forum Webinars
- Data collection and QI education
- KPQC Regional Workshops
- KPQC General Meetings

**INTERVENTIONS**

- Champions for each center identified (VON champion/Data collector/Physician or team leader) – could be the same person in smaller centers
- VON Universal Education rolled out through champions at each center
- Educational information concerning center of excellence designation
- VON learner progress reports, tips for completion
- Education on VON state toolkit resources and practice building guidelines

- KPQC reviews VON progress on monthly basis with participating Centers
- KPQC facilitates resources for Centers, educational updates
- KPQC aids navigation of VON state site and Center sites
- KPQC facilitates state data reporting, monthly data reports via Learning Forums and KPQC website

- Centers have access to VON/State tool kits and support from KPQC to work locally in development/implementation of standardized care practices
  - Initial Webinar VON Launch (June & October 2018)
  - Centers supported with monthly Learning Forum webinars
  - Initial Learning Forums focused on navigating Kansas state site and outlining 8 PBP
  - Jan-Aug 2019 Learning Forums focused on didactics on each of best practices, peer experience and data collection
  - Further Learning Forums directed by needs of the group
  - Some experts to present in webinars (PT/OT/Pharm) etc.

- Dynamic data collection in which data entering process provides QI direction and real time feedback
- Data support and education for centers
- Data processing for individual centers and unidentified comparisons for all centers

- Face to face meetings with participants from regional areas within Kansas
  - Give direct support for QI processes and detailed education on best practices in which centers require support
  - General meetings focusing on QI and best practice implementation
  - Initial Workshops occurred after preliminary work was done by each center through webinar and direct support
  - Phase two workshops address compassionate care, advanced protocol building

**Key Performance Measures:**
- Direct admits to NICU
- % pharm treatment
- LOS for those pharm treated
- Transfers to referral center for infant at risk or with NAS

<thead>
<tr>
<th>NAS Bundle Resources</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>KPQC NAS Bundle</strong></td>
</tr>
<tr>
<td>Discovery</td>
</tr>
<tr>
<td>• Partner with prenatal care providers to facilitate universal screening and early identification per ACOG guidelines</td>
</tr>
<tr>
<td>• Standardize protocol for infant drug screening</td>
</tr>
<tr>
<td>• Partner with treatment centers</td>
</tr>
<tr>
<td>Evaluation</td>
</tr>
<tr>
<td>• Utilize one specific NAS scoring tool</td>
</tr>
<tr>
<td>• Standardize an NAS scoring education program assuring clinicians are trained upon hire with reliability checked yearly</td>
</tr>
<tr>
<td>Treatment</td>
</tr>
<tr>
<td>• Standardize protocol directed at avoiding separation of infant and mother outlining evaluation and non-pharmacologic treatment of the substance exposed infant</td>
</tr>
<tr>
<td>• Standardize education for families to engage in non-pharmacologic intervention</td>
</tr>
<tr>
<td>• Provide Vermont Oxford Network NAS Universal Education virtual classroom access to the interdisciplinary team and all involved in creating a culture of compassion and healing for the mother and infant.</td>
</tr>
<tr>
<td>• Standardize protocol outlining criteria for breastfeeding which promotes and supports breastfeeding in eligible mothers</td>
</tr>
<tr>
<td>• Standardize protocol for pharmacologic treatment of NAS</td>
</tr>
<tr>
<td>Discharge</td>
</tr>
<tr>
<td>• Standardize a process to ensure safe discharge</td>
</tr>
<tr>
<td>• Establish appropriate follow-up for mother</td>
</tr>
<tr>
<td>• Liaison with child protective services to align expectations and assure that appropriate resources are available upon discharge</td>
</tr>
<tr>
<td>• Standardize a process for measuring and reporting NAS rates, data collection and outcome measures.</td>
</tr>
<tr>
<td>• Standardize a classification utilized to designate infants at risk for NAS and treated pharmacologically</td>
</tr>

</table>

*Blue indicates resource shared today*
Pregnant Women with Suspected COVID or Confirmed COVID (identified by admission testing or testing for suspicion)

COVID-19 negative and asymptomatic
- Discharge: Routine follow up; Maternal and Newborn

COVID-19 positive; asymptomatic
- Postpartum asymptomatic women should be monitored closely for development of COVID symptoms postpartum
  - Consider ultrasound surveillance
  - Consider antenatal testing
  - Monitor for blood clot formation
  - Evaluate lab abnormalities

COVID-19 positive and/or symptomatic
- Fever, chills, muscle pain, sore throat, headache, loss of taste, shortness of breath.
- May also have preeclampsia-like symptoms; high blood pressure, elevated liver enzymes, low platelets.
- Ultrasound surveillance
- Antenatal testing
- Monitor for blood clot formation
- Evaluate lab abnormalities

Maternal
- Obstetric follow up; clinic or telemedicine
  - Symptoms of COVID
  - Blood pressure, pulse oximetry
  - Symptoms of blood clot; Stroke, PE, DVT
- MCH Referral for education, support services, case management

Newborn
- Pediatric follow up; clinic or telemedicine
  - Decreased vigor
  - Decreased feeding
  - Respiratory Distress
  - Cyanosis
  - Weight loss
- MCH Referral for education, support services, case management

Local Public Health Referral
  - Local Maternal Child Health (MCH) services referral
    (https://kdhe.maps.arcgis.com/apps/opsdashboard/index.html#/ff50a13177fc465ab96f333d4dc26a54)

Coding Neonatal Abstinence Syndrome (NAS) in Kansas

Define NAS:
- Signs of NAS requiring some care different than routine observation:
  - Medical treatment or
  - Prolonged hospital stay for comfort cares beyond normal observation period:
    - 72 hours: exposure to short acting opiate
    - 5 days: exposure to long acting opiate
  - Excessive need for comfort cares during hospitalization (i.e. 24/7 holding)
- Always start with the known exposure code

Confirmed NAS; code 96.1
- + infant drug screen for opioids, benzos or barbiturates
- Symptoms requiring increased care (as defined above)

Probable NAS; code 96.1
- History of exposure to above or + maternal drug screen for opiates, benzo or barbiturates
- Negative infant drug screen
- Symptoms requiring increased care (as defined above)

Suspected NAS; coded by exposure code P04.xx
- All other drug exposures with or without symptoms
- Exposure to opioids, benzo or barbiturates without significant symptoms

Could possibly be coded as 96.1:
- P04.14 Newborn affected by maternal use of opiates
- P04.17 Newborn affected by maternal use of sedative-hypnotics
- P04.1A Newborn affected by maternal use of anxiolytics
- P04.13 Newborn affected by maternal use of anticonvulsants
- P04.49 Newborn with exposure to methadone, at risk for methadone withdrawal

Must be coded by exposure code P04.xx; Cannot be coded as 96.1:
- P04.11 Newborn affected by maternal antineoplastic chemotherapy
- P04.12 Newborn affected by maternal cytotoxic drugs
- P04.15 Newborn affected by maternal use of antidepressants
- P04.16 Newborn affected by maternal use of amphetamines
- P04.17 Newborn affected by maternal use of sedative-hypnotics
- P04.18 Newborn affected by other maternal medication
- P04.19 Newborn affected by maternal use of unspecified medication
- P04.41 Newborn affected by maternal use of cocaine
- P04.3 Newborn affected by maternal use of Alcohol
- P04.2 Newborn affected by maternal use of tobacco
- P04.42 Newborn affected by maternal use of hallucinogens
- P04.9 Intrauterine drug exposure ------ write in drug if not one of the above

Mission: Provide leadership to enhance the health of Kansas women, men and children in partnership with families and communities. The Bureau supports a statewide system of public health services across the life course including licensing and regulation of facilities providing out-of-home care to children.

Bureau Director: Rachel Sisson | 785-291-3368 | www.kdheks.gov/bfh | kdhe.bfhadmin@ks.gov

Maternal & Child Health (MCH) with Affiliated Programming

Maternal & Child Health (MCH) including Special Health Care Needs (SHCN)

- Provides access to comprehensive services through local agencies for all individuals (ages birth through adulthood) with low income or limited access to health services through partnerships with local agencies
  
  NOTE: MCH State Action Plan reflects Title V MCH Services Block Grant activities for all populations
  
  https://www.kdheks.gov/c-f/mch.htm

- Perinatal Community Collaboratives improve maternal health and well-being, birth outcomes, eliminate disparities, and reduce infant mortality by delivering the Becoming a Mom (BaM) prenatal education program, based on the KDHE and March of Dimes partnership, and ensure comprehensive care and support services for the mom, infant, and family during pregnancy and the postpartum periods.
  
  https://www.kdheks.gov/c-f/perinatal_community_collaboratives.htm

- Special Health Care Needs (SHCN) promotes the functional skills of persons, who have or are at risk for a disability or chronic disease; provides supports and services based on eligibility
  
  https://www.kdheks.gov/shcn/index.htm

Home Visiting

- Universal MCH Home Visitors provide outreach, support, and referrals to other community services for pregnant women and families with infants up to one year; health, psychosocial and nutrition assessments are provided through a collaborative effort among public health and other providers
  
  http://kshomevisiting.org/universal-home-visiting/

- Maternal, Infant, Early Childhood Home Visiting (MIECHV) delivers voluntary, evidence-based home visiting programs for at-risk pregnant women and parents with young children, birth to 5 years; targeted to urban Wyandotte County and four counties in rural Southeast KS
  
  http://kshomevisiting.org/learn-more-about-miechv/

Pregnancy Maintenance Initiative (PMI) (authorized by K.S.A. 65-1,159a)

- Provides an array of social services to support pregnant women and mothers up to 6 months postpartum including pregnancy maintenance (carrying to term), adoption services, education, and information. Services do not include performing, promoting, or referring for abortion
  
  https://www.kdheks.gov/c-f/pmi.htm

Teen Pregnancy Targeted Case Management (TPTCM)

- Provides access to individualized, comprehensive case management services for KanCare-eligible (Medicaid) pregnant and/or parenting women up to 21 years of age to assist with services/supports and goal attainment
  
  https://www.kdheks.gov/c-f/teen.html

Lifting Young Families Toward Excellence (LYFTE)

- Strengthens the education, employment/career, and relationship opportunities for pregnant and parenting adolescents 21-24 years of age enrolled in school by providing case management with wrap-around services to evidence-based programs, through a youth driven approach incorporating technology driven mentorship and incentives; target communities: Northeast (Geary), Southwest KS (Kearny), Southcentral KS
The Kansas Connecting Communities project is supported by the Health Resources and Services Administration (HRSA) of the U.S. Department of Health and Human Services (HHS) as part of an award totaling $3,245,698 with no percentage financed with non-governmental sources. The contents are those of the author(s) and do not necessarily represent the official views of, nor an endorsement, by HRSA, HHS, or the U.S. Government. For more information, please visit HRSA.gov.

**Kansas Department of Health and Environment (KDHE)**

Provides project oversight and alignment with key stakeholders across the state.

**Kelsee Torrez, KCC Project Director**
Behavioral Health Consultant
Kelsee.D.Torrez@ks.gov

**CKF Addiction Treatment**

Assistance with telehealth implementation and connection to residential and outpatient treatment services.

Available in the Southeast Kansas IRIS community

**Shane Hudson, President/CEO**
shudson@ckfaddictiontreatment.org

**Wichita State University (WSU)**

Provides resources, assistance and training for existing and developing support groups across Kansas for community members and providers.

TOGETHER we can help moms thrive!

The effects of untreated perinatal mental health and substance use ripple through families and we all know that treatment options are often limited or lack capacity.

PERINATAL PROVIDER CONSULTATION LINE for BEHAVIORAL HEALTH

(833) 765-2004
or visit bit.ly/ProviderConsult

8:00 am-5:00 pm, Weekdays

Staffed by licensed mental and behavioral health clinicians. All voicemails and emails will be returned within 24-hours.

1
We will gather the reason for call, your information, patient’s perinatal status, and patient’s screening results (if applicable).

2
Your call will be addressed and triaged. No patient identifying information will be requested.

3
If your call would benefit from a Psychiatric teleconsultation, a time will be scheduled.

This free service is open to Kansas healthcare or social service providers working with perinatal patients.

Symptom identification and treatment planning

Patient resources and local referral options

Psychiatric consultation for medication and dosage recommendations

Integrate telehealth into clinical setting (infrastructure & DIRECT SERVICES)

For additional resources including customized training opportunities for your clinic, email KCC@ku.edu

The Kansas Power of the Positive (KPoP) is a statewide coalition committed to all Kansas children growing up in safe, stable, nurturing relationships and environments. It is a coalition of state agencies and not for profit organizations with the mission of supporting children and families in Kansas.

The Hope Starts Now campaign was created to support priority 4 of the State of Kansas Child Maltreatment Prevention Plan authored by KPoP which is to increase support-seeking behavior in pregnant and postpartum women with Opioid Use Disorder (OUD).

The campaign is funded by the Kansas Department of Health & Environment (KDHE).

This campaign’s goal is to encourage pregnant and postpartum mothers experiencing opioid use disorder or substance use to seek support and treatment by calling the Parent Helpline 1-800-Children where they will receive resources including the number to the Regional Drug and Alcohol Center (RADAC) and area support groups.

The main tagline for this campaign is “sometimes hope needs help” and we are looking for organizations and agencies to assist this campaign in reaching pregnant and postpartum mothers and those that support them to be that help.

Campaign Materials that are available:
- Promotion Flyers
- OUD Information Flyer
- Social Media Posts
- Newsletter Ad

How campaign materials can be used:
- Print, distribute and/or display flyers
- Shared in your email or print newsletters or on your social media pages
- Host materials for others to access and download from your organization’s website

To receive these materials, fill out the Promotion Agreement by clicking this link: [https://wichitastate.co1.qualtrics.com/jfe/form/SV_3g7OO1ChGPzp1R3](https://wichitastate.co1.qualtrics.com/jfe/form/SV_3g7OO1ChGPzp1R3)

After you have submitted the promotion agreement our team will reach out and provide the materials and answer any questions you may have.
Standardized Pharmacologic Approach Utilizing PRN Medication for NAS

Jodi Jackson, MD
Past KPQC Chairperson
Children’s Mercy Hospital Kansas City
Advent Health Shawnee Mission NICU Medical Director
NAS Thoughts for Consideration

• 55-94% of infants develop some degree of NAS
  • Short-acting: Sx start on day 1, peak by 36 hr, improve by 48 hr
  • Long-acting: Sx start on day 2, peak by day 4, improve by day 5
• No relationship between maternal medication dose and severity of NAS, whether infant will need pharm Tx or length of pharm Tx
• Symptoms may present earlier or in different fashion if mom:
  • On other medications/using other substances that contribute to sx of withdrawal or toxicity (short acting opiates, cigarettes, cocaine, benzodiazepines, methamphetamine, amphetamine, SSRIs
  • Mother missed dose of MAT day prior (or 24 hrs+ out from dosing)

  ✤ Always consider mom’s other meds/substances when considering whether opioid replacement medication is needed
  ✤ Should not need to start meds on DOL 1 unless short-acting exposure
Why the long opioid taper?

NNEPQIN Jan 2019 Webinar on PRN dosing and Monitoring Policies. E.Wachman, M.Grossman

Quality Report
An Initiative to Improve the Quality of Care of Infants With Neonatal Abstinence Syndrome

©2017 by American Academy of Pediatrics

Improving Care for Infants With Neonatal Abstinence Syndrome: A Multicenter, Community Hospital-Based Study
Using a multidisciplinary quality improvement approach, we implemented an ESC protocol at 2 community hospitals.

DOI: https://doi.org/10.1542/hpeds.2019-0083
Standard Fixed-Schedule Methadone Taper Versus Symptom-Triggered Methadone Approach for Treatment of Neonatal Opioid Withdrawal Syndrome
This was a single-center quality-improvement study of infants pharmacologically treated for NOWS
DOI: https://doi.org/10.1542/hpeds.2018-0165

©2019 by American Academy of Pediatrics
Problems with PRN Medication

• Which medication to use?
• How long to monitor?
• Where to monitor?
• How many PRN doses before scheduled dosing?
• How quick to wean if scheduled dosing?
• Are these QI works that need rigorous research to validate?
• Can this evidence stand on its own?
KPQC Proposed Bylaw Amendments

Recommended by the KPQC Executive Committee April 9, 2020
Presented to the KPQC General Membership for vote July 20, 2020

Amendment 1

- **Purpose:** To add an ex-officio officer representing the Kansas Hospital Association with all of the rights but none of the term limits of duly elected officers.
- **Article IV, Section II, 2.1:**
  The Executive Committee officers shall be elected by a majority vote from the KPQC general membership. Officers include: Chairperson, Chairperson Elect (who serves as Vice-Chairperson), Past Chairperson, five Executive Committee members, one appointed Kansas Hospital Association representative, and one appointed KDHE representative.
- **Article IV, Section II, 2.5 (new):**
  The Executive Director of the Kansas Hospital Association (KHA) will appoint a staff person of their choosing to serve on the Executive Committee of the KPQC. This individual has voting rights and is exempt from Executive Committee member term limits. Any change in Agency representative shall be in writing and given to the KPQC Chairperson.

Amendment 2

- **Purpose:** Changing the makeup of the Executive Committee Nominating Committee and clarifying nomination and election process.
- **Article IV, Section II, 3.1**
  A Nominating Committee to include the Chairperson, Chairperson elect (who serves as the Vice-Chairperson), Past Chairperson, and two KPQC general members officers will give their panel of nominees to the KPQC General Membership at the annual November meeting for the election approval of Executive Committee officers.
Amendment 3

- Purpose: Establishing a provision for replacing an officer mid-term.
- Article IV, Section V
  In the absence of the Chairperson, or in the event of the Chairperson’s inability or refusal to act, or resignation, the Vice Chairperson shall perform the duties of the Chairperson until the appointment of a new Chairperson. A resignation of any officer shall be in writing and given to the Past Chairperson. The KPQC Past Chairperson shall, with the concurrence of the Chairperson and the Chairperson-Elect, appoint a new officer for the remainder of the officer’s term.
