Fourth Trimester Initiative

Enrollment Packet 2023
Vision
To make Kansas the best place to birth, be born, and to raise a family.

Mission
To improve Kansas’ maternal and infant health outcomes by assuring quality perinatal care using data-driven, evidence-based practice, and quality improvement processes.

Fourth Trimester Initiative Background
Kansas Department of Health and Environment (KDHE) has teamed up with the Kansas Perinatal Quality Collaborative (KPQC) to launch a maternal health quality initiative aimed at decreasing maternal morbidity and mortality in our state. Data from KDHE Vital Statistics, as well as from the Kansas Maternal Mortality Review Committee, demonstrated that focused evaluation and intentional intervention in the postpartum period should be the primary goal to improve maternal health outcomes. The Fourth Trimester Initiative was designed to be a cutting-edge approach to study and improve the experience of our mothers and families in Kansas.

Fourth Trimester Initiative Purpose
To engage and empower patients, their families and support system, providers, and Kansas communities to intentionally improve maternal health outcomes with our collective, inspired effort.
Fourth Trimester Initiative (FTI) Implementation

The FTI will focus on the postpartum period of the mother to:

✓ Enhance the education of providers, patients, and her community regarding best practice models
✓ Improve utilization of community perinatal collaboratives
✓ Improve communication and collaboration between providers
✓ Engage all maternal health stakeholders
✓ Address racial disparities in maternal health care
✓ Implement a targeted quality improvement project, including data collection
What’s in it for our birth facilities?
Birth facilities who participate in the FTI will receive, at no cost, directional coaching and the provision of this timely and necessary quality improvement project. Free resources, training, technical assistance, and constant collaboration with maternal health leaders across Kansas will be available. Comprehensive and vast improvement in postpartum health care is intended to lead to healthier women, infants, and families in our communities and across the state.

Process that participating birth facility teams will work on in preparation for the AIM Bundle Release:

1. Collect baseline birth facility data or information on postpartum care provided at your facility, total births, births by race, postpartum visit process
2. Standardize a feedback loop for assessing attendance at postpartum visits
3. Identify the Perinatal Community Collaborative associated with the birth facility
4. Complete County-level data review to identify maternal health disparities in the community
5. Identify Postpartum Care Team members
6. Begin building multidisciplinary partnerships with community agencies to aid in coordination and collaboration of services
Fourth Trimester Initiative

Our Purpose

A review of Kansas maternal deaths determined the majority of deaths occur between the time immediately after birth and the end of the first year. We also know the year after birth has many physical and emotional changes for the mother, baby, and family. Together we created the Fourth Trimester Initiative (FTI), a cutting-edge approach to study and improve the experience of our mothers and families in Kansas. Through this work we will engage and empower patients, their families and support system, providers, and Kansas communities to intentionally improve maternal health outcomes with our collective, inspired effort.

Goals

To decrease maternal morbidity and mortality in Kansas we will:

- Conduct standard screening of all childbearing-aged women
- Provide guideline-driven, best practice health care
- Provide mechanisms to assure timely referral and follow up
- Identify each mother’s Postpartum Care Team
- Ensure a personalized Patient Plan of Care (“Mom Plan”)
- Provide reproductive health planning
- Establish ongoing insurance coverage
- Address social determinants of health and health equity

Taking Action

- Encourage Postpartum (PP) Visit Attendance
- Enlist Referral Networks
- Engage Patients & Support System
- Review & Update Facility Policy
- Evaluate Local & Statewide Data
- Educate Maternal Warning Signs, Perinatal Mental Health, Substance Use Disorder (SUD), Breastfeeding, Family Planning, Health Equity, Patient Navigation
- Improve PP Care
- FTI Enrollment

KPQC is now enrolled in the AIM Bundle “Postpartum Discharge Transition”, found at https://saferbirth.org/psbs/postpartum-discharge-transition/
FTI Overview for New Sites

2023
The NEW Postpartum Model

In every patient, in every birth setting, in every protocol:

- Maternal Warning Signs
  - POSTBIRTH Education & Recognition
  - Screen all
  - Identify Medical/Social Red Flags: refer prior to discharge

- Maternal Mental Health
  - Screen all
  - Refer + Screen
  - Educate All (POSTBIRTH)

- PP Appointment prior to discharge
  - Standardized DC Summary

- Breastfeeding
  - High 5 for Mom & Baby, Baby Friendly

- Family Planning
  - Offer prior to discharge, Refer for services

- SSOH
  - Screen all

- Birth Equity
  - All settings, all interactions, patient-centered

- PP Care Team: Facility representatives; Patient included
  - Navigation

- Pt debriefs

- ED/EMS Triage

- Link Up! (KPCCs, MCH, Outpatient clinics, etc)
In every patient, in every birth setting, PRIOR to discharge:

- PP Appt made prior to DC
  - Standardized DC Summary
- PP Care Team, as indicated
- Navigation, as indicated
  - Community Resource List
- Birth Equity as standard practice
- Screenings completed
  - SDOH
    - Mental Health
    - Medical risks
    - Breastfeeding
    - Fam Planning
- Referrals Made
  - SDOH
    - Mental Health
    - Medical indications
    - Breastfeeding
    - Fam Planning
Fourth Trimester Initiative
Birth Facility Enrollment

Key Steps to Birthing Facility Participation in the
Fourth Trimester Initiative (FTI)

Readiness

- Review documents outlining the Fourth Trimester Initiative and determine interest in enrolling. Complete the “Participation Readiness”. If your birth facility is ready to enroll, complete all forms and follow submission instructions. If your birth facility does not wish to enroll at this time, complete only the Participation Readiness portion on page 18 and return it.

Role

- Identify the key FTI members at your birth facility according to the “Roles for Initiative Enrollment” (refer to definitions below). List each team member and related information. A team member may fulfill more than one function.
  - FTI Champion
  - Lead Obstetrics Provider

Enrollment Agreement

- Obtain approval for your birth facility’s enrollment and have the authorized agent sign the “Enrollment Agreement”.
  - The authorized agent will submit acknowledgement in the enrollment form that he or she has obtained all necessary consents to submit enrollment data to the Kansas Perinatal Quality Collaborative and KDHE.
  - Obtain determination from your institutional review board (IRB) or risk management office affirming that the enrollment, data collection, and sharing methods for the purposes of the FTI are ethical, for quality improvement only, and do not constitute research.
Enrollment Survey

- Review and complete the “Initial Participation Survey”.

Submission

- Submit all forms below to Terrah Stroda, CNM, FTI Coordinator (tstroda@gmail.com):
  - Roles for Enrollment
  - Enrollment Agreement
  - Enrollment Survey

Participation

- Attend monthly KPQC Learning Forum sessions (recorded for your convenience).
- Submit data reports per FTI requirements.
Fourth Trimester Initiative
Enrollment Form

Birth Facility Name:
Name of Person Submitting Form: ______________________________________
Title: __________________________________________________________________
Email Address: _________________________________________________________

Participation Readiness:

Which of the choices below best reflect your facility’s readiness to enroll in the KPQC Fourth Trimester Initiative?

☐ Our facility is ready to enroll in the Fourth Trimester Initiative.
   ***Complete all forms and submit the enrollment packet to the FTI Coordinator***

☐ Our facility would like to participate in the Fourth Trimester Initiative, but we will need time to identify our team members and obtain Executive support. This spring is too soon for our facility to enroll. ***STOP and submit the enrollment packet to the FTI Coordinator***
Roles for Enrollment

As a participant in the KPQC Fourth Trimester Initiative, your birth facility will identify individuals to serve in the roles identified below. Changes to these assignments during the course of the project should be sent to the FTI Coordinator.

1. FTI CHAMPION:
   **Role Description:** The FTI Champion will be the main point of contact for the KPQC and be responsible for helping their team navigate the initiation of the Fourth Trimester Initiative at their facility. The FTI Champion will develop, monitor and update a list of relevant team members. He/she will monitor and submit birth facility reports and provide feedback internally as well as to the FTI Coordinator.

   **Name & Credentials:** ____________________________________________________________
   **Title:** ____________________________________________________________
   **Email Address:** ____________________________________________________________
   **Phone:** ____________________________________________________________

2. Lead Obstetrics (OB) Provider
   **Role Description:** Lead OB Provider will aid the team in implementation of the FTI quality improvement work. They will assist the team in prioritizing FTI improvements and implementing quality improvement PDSA (Plan, Do, Study, Act) cycles.

   **Name & Credentials:** ____________________________________________________________
   **Title:** ____________________________________________________________
   **Email Address:** ____________________________________________________________
   **Phone:** ____________________________________________________________

3. Learners: (Do not need to be formally identified)
   The FTI is relevant to every maternal health team member. Learners include health care providers at the bedside, outpatient and inpatient settings, support infrastructure, referral networks, and individuals across sectors and settings in the supporting community: MD, CNM, PA, NP, RN, WIC staff, MCH staff, outpatient private practice staff, social worker, patient navigators/community health workers, hospital administration, rapid responders, perinatal community
coalitions and collaboratives, social services and child welfare, parents, school district staff, etc. Everyone is invited to participate in learning and encouraged to be actively engaged in the FTI Project.

All team members can subscribe to KPQC communications here: https://kansaspqc.org/contact-us/get-involved/
Enrollment Agreement
THE PARTIES, through their duly authorized representatives, accept the terms of this Agreement and have executed it as of the date shown below.

Terms
1. I acknowledge that our facility has obtained all necessary consents to submit responses to this enrollment survey to the KPQC FTI Coordinator and KDHE.
2. Confidentiality:
   a) Information that will remain confidential among KDHE, KPQC, and participating facilities includes:
      • Team contact information
      • Non-aggregated survey responses
   b) Information that will be shared by the KPQC includes
      • Names of participating facilities in the Fourth Trimester Initiative
      • Aggregated survey responses
      • Process Reports (will only be shared among enrolled participants)
3. Our facility agrees to collaborate with KDHE and KPQC
4. Our facility reserves the right to discontinue participation in the Fourth Trimester Initiative at any time
5. Our facility agrees to collaborate and partner with organizations, agencies, and providers within our community in fulfillment of cross-sector communication and facilitation of maternal health needs.

Enrollment Survey

Question 1: How many births (Live and Still births) occurred at your facility in 2022? Note that singleton as well as births of multiples all count for as just one birth.

Question 1a: Record the maternal race/ethnicity of the births at your birth facility that occurred in 2022.
(*If there are low numbers for your facility which raise concerns about individually identifiable information, you may report County-level information here. That county-level data may be found at KDHE Vital Statistics:
I am reporting: (check one)
☐ Facility data
☐ County data

Question 2: Does your birth facility typically refer mothers to another facility when a more intensive level of care is needed in the postpartum period?
☐ Yes, for more intensive care, we most frequently refer to:

☐ No, our birthing facility is a Regional Referral Center. The 5 most common birth facilities that refer patients to your facility for more intensive care are:
**Question 3**: How often do your patients leave the birth facility with a postpartum appointment already made with a primary OB Provider?
- [ ] Most of the Time (>50%) – move to questions 3a-3d
- [ ] Some of the Time (<50%) – move to questions 3a-3d
- [ ] Never – move on to question 4

**Question 3a**: Tell us who is currently involved in making Postpartum appointments upon discharge from your birth facility?
(For example: OB Provider, Unit Clerk, Nurse, Case Navigator, etc)

______________________________

**Question 3b**: Which of the following appointments are made prior to discharge from your birth facility? Check all that apply.
- [ ] Primary OB Provider
- [ ] WIC
- [ ] Lactation Clinic
- [ ] Specialty Consultant (Internal Medicine, MFM)
- [ ] Mental Health Provider
- [ ] Home Visitor

**Question 3c**: What is the most common timing for a postpartum appointment made prior to discharge from your birth facility with a Primary OB Provider?
- [ ] 1 week
- [ ] 2 weeks
- [ ] 3 weeks
- [ ] 4 weeks
- [ ] 6 weeks
- [ ] 8 weeks
- [ ] 12 weeks
- [ ] NA (We do not make postpartum appointments prior to discharge).

**Question 3d**: Does the timing of the postpartum appointment vary based on medical/pregnancy risk factors?
- [ ] Yes
- [ ] No
Question 4: Do you currently have a feedback loop that allows your birth facility to monitor patient attendance at a postpartum visit with the Primary OB Provider within 12 weeks Postpartum?
  □ Yes
  □ No

Question 5: Do you currently have a Postpartum Care Team identified to meet the needs of each postpartum patient?
(ACOG definition: A Postpartum Care Team includes the medical providers who will be primarily responsible for care of the women and her infant after birth. The PP Care Team comprises the following: Primary OB Provider, Infant Health Providers, Lactation Support, Care Coordinator, Home Visitor, and Specialty Consultant)
  □ Yes
  □ No

Question 6: Does your birth facility participate in a Perinatal Community Collaborative or County Perinatal Coalition?
  □ Yes – move to question 6a
  □ No – move to question 7

Question 6a: If yes, what is the name of the lead organization or agency?
____________________________________________________

Question 7: Does your birth facility currently review county-level maternal health outcome indicators through systems such as Kansas Vital Statistics, Kansas Health Matters, PRAMS, or Kansas Information for Communities?
  □ Yes
  □ No

KDHE KS Information for Communities (KIC): http://kic.kdheks.gov/

Question 8: What Maternal Care Level is your facility:
  □ Birthing Center
  □ Level 1
  □ Level 2
Question 9: What NICU Level is your Facility:
- Level 1
- Level 2
- Level 3
- Level 4

Survey Q&A

Q: What is the definition of a birth?
A: Live births as well as stillbirths should be counted. Also note that singleton as well as births of multiples all count for as just one birth.

Q: Who is included as a “Primary OB provider”
A: “Primary OB Provider” includes: OBGYNs, CNMs, CPMs, CMs, Family Physicians, and Women’s Health Nurse Practitioners. Of note, the Primary OB Provider does NOT need to be the same person who attended the birth.

Q: Who do you mean by postpartum patients?
A: For the purposes of this data collection, we mean anyone discharged home from your birth facility that is within 12 weeks postpartum.

For additional questions, please contact the FTI Coordinator, Terrah Stroda: tstroda@gmail.com
